**5. One of the proposals is that buildings will have to meet strict energy efficiency requirements to before the owners can claim the feed-in tariff. Currently less than 10% of houses, and 34% of flats, meet the requirements. Is this a sensible criteria?**

		Response Percent	Response Count
Yes, it's important that energy efficiency is addressed before microgeneration		18.0%	31
Yes, but EPC level C is setting the bar too high		26.2%	45
Maybe, I'm not sure		5.8%	10
<b>No, microgeneration brings people in touch with energy use, and is a good trigger for energy efficient behaviour</b>		<b>31.4%</b>	<b>54</b>
No, microgeneration is not related to building performance		18.6%	32
